

# I Spy Outside the Museum

**N** NATURAL  
HISTORY  
MUSEUM  
AT TRING

Look high and low around the grassy quad to discover interesting and strange building features. I spy with my little eye...

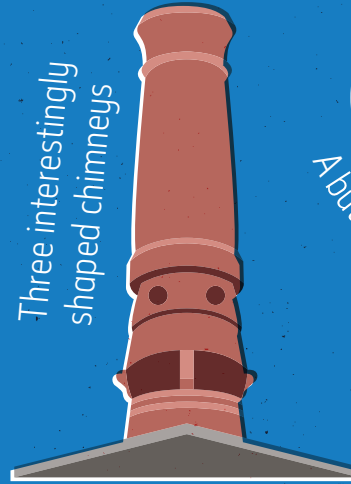

Something beginning with the letter B

**B**

Something which is ball shaped

Three interestingly shaped chimneys

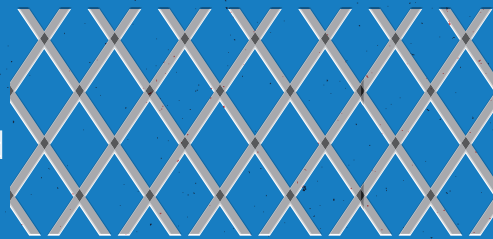

A butterfly sun dial

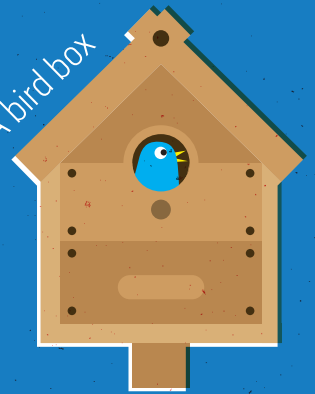

A coat of arms

Diamond shapes

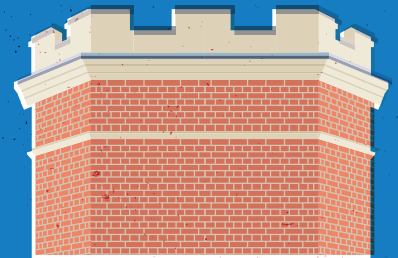

A bird box

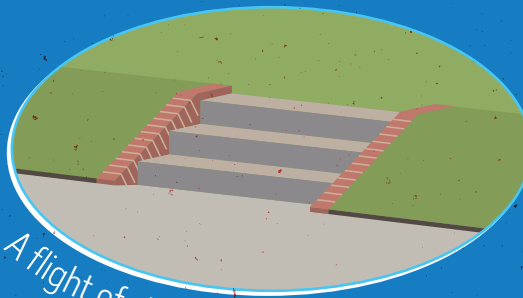

1889

A special brick dated 1889

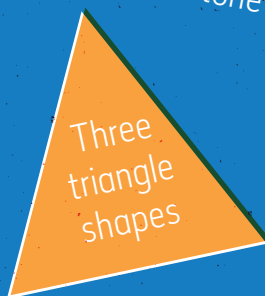

Some castle like turrets

A flight of stone steps

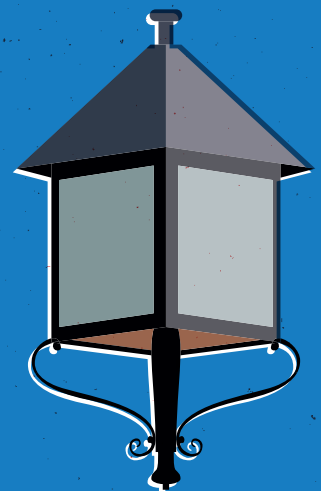

Three triangle shapes

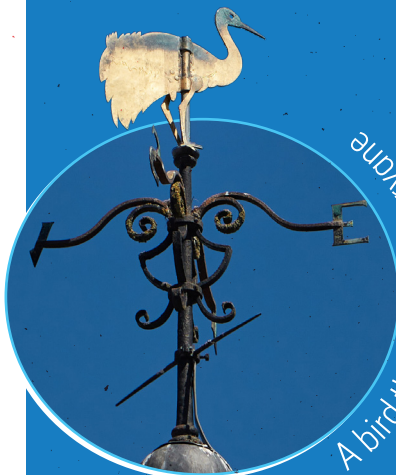

Two doorbells

Three old fashioned lanterns

A bird themed weather vane

What other features have you been able to spot which aren't on our list?

Well done! Now turn over to play I-Spy in the woodland.

# I Spy in the Woodland

N  
NATURAL  
HISTORY  
MUSEUM  
ATTRING

Cross the road to our small woodland area  
and follow the small paths within it to find:

Something  
beginning  
with these  
five letters...

T

A curiously  
shaped stone

Something  
smooth

Five different  
shaped leaves

Something  
rough

Woodlice  
breathe  
through gills.

A log

Carefully  
roll a log to  
see what  
you find.

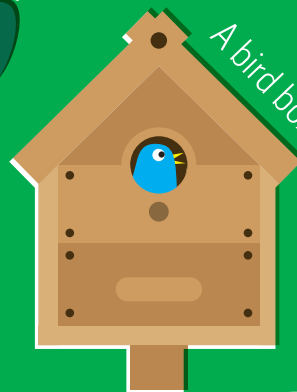

Pine trees  
have needles  
all year  
round.

Caterpillars  
eat stinging  
nettles.

A footprint

A bird box

Some  
spiders eat  
their webs for  
extra energy.

Something  
stumpy

An insect

Insects  
have six  
legs.

Something  
soft

Wood mice  
store food  
underground  
for winter.

Once you have completed the trail  
please return to admissions.
